Sukanya was initiated as a small group of friends who always wondered why Child Sex Ratio was deteriorating with every subsequent census, Why Government initiatives failed to succeed and What need to be done to have an equitable society for long term peace full existing of the Society.

Female Foeticide Or Sex selective abortion was found to be the core reason for steep fall in the Child Sex Ratio & Sukanya initiated information campaign against Female foeticide in schools, Colleges, Hospitals (Waiting Halls) & outside temples(toughing upon socio-relation aspect of the issue)

Due to shortage of resources our initiatives have been at very small level. Sukany is proud to be associated with the NGO association progreemm of Indian Institute of Foreign Trade, New Delhi, JIMS, Noida, TISS Mumbai. Apart from this peace meal efforts are being made to propagate the message to Save the Girl Child.

We have submitted suggestions to Ministry of Health & Family Welfare, Government of India for modifications in the Draft Medical Termination of Pregnancy (amendment) Bill 2014.
